

ROAD BOOK

We are delighted to welcome you to join us for the inaugural ecoRally Scotland, a navigational regularity road rally devoted to normal production road cars with an electric drivetrain, taking in just a small part of the scenic Scottish Borders.

FIA / Motorsport UK

ecoRally Scotland is organised by the Scottish Motor Racing Club as, and will be run as a 12-car Navigational Regularity Road Rally, for which Motorsport UK have issued organising permit number 131243. The event will be held under the General Regulations of Motorsport UK (incorporating the provisions of the International Sporting Code of the FIA), and the published Supplementary Regulations.

Event Timing

The event will run in accordance with the timetable below, which is based on the time for Car number 01. Cars will be started individually in numerical order at intervals of 1-minute.

Times are based on an average of 30mph. Please drive at a steady comfortable pace respecting all speed limits, Stop signs and Give Way junctions. Note: a number of villages along the route have 20mph speed limits. Please hand your time card to the marshal at each Time Control. It is permissible to check-in early (not less than $\frac{3}{4}$ of the time allowed for the section) or late (up to 30-minutes total lateness) without penalty at TC2, TC4, TC6 and TC8. The sections between TC2 to TC3 and TC6 to TC7 are Regularity Sections where you should attempt to drive as close to the 30mph average as possible over the route. The marshal at TC3 and TC7 will record your arrival time and you will be penalised for every second over or under your scheduled arrival time. There will also be 'Secret Controls' along the regularity sections where your time of passing will be recorded. You are not required to stop at the 'Secret Controls'.

If you get lost or miss a Time Control, you may rejoin the rally at MTC5 at the lunch halt at Woll Golf Club, TD7 4PE.

Route Instructions

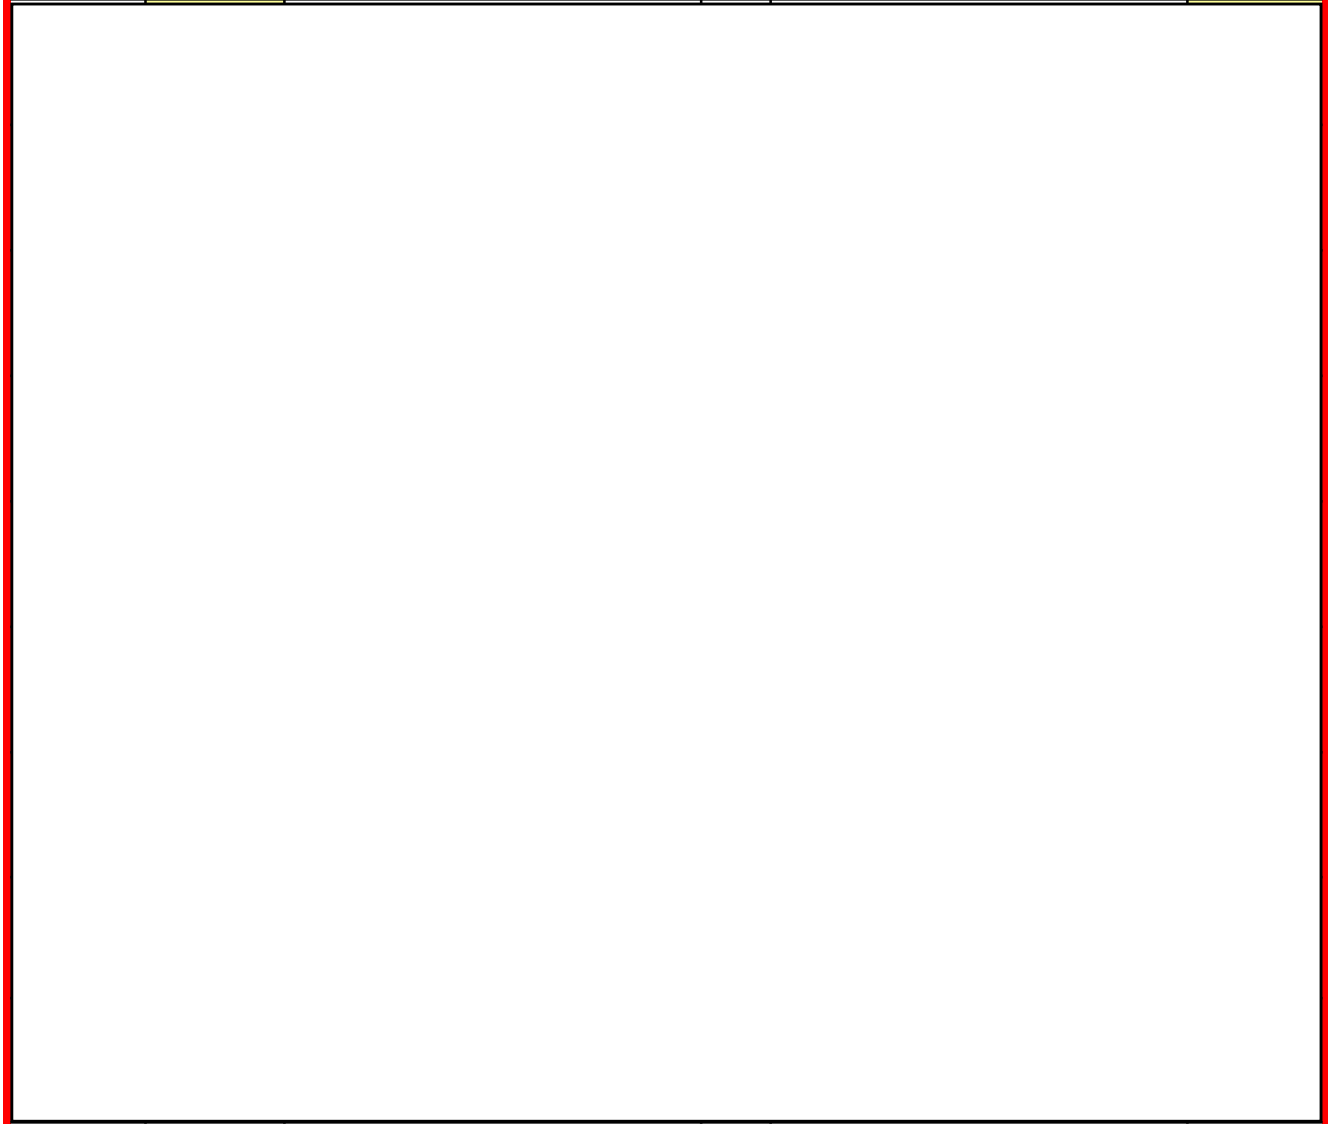

Route instructions take the form of simple “Tulip” diagrams complimented by total mileage and interval mileages between points. Mileages were set using a standard road car and you may find your mileages differ slightly. Some villages and other features are included for the purposes of route confirmation.

- Please maintain the highest of driving standards at all times.
- We ask that you show consideration to other road users and to residents along the route and use the passing places to allow faster vehicles to overtake and approaching vehicles to pass by on single track roads.
- Cars will be started from each Time Control at 1-minute intervals to avoid driving in convoys.
- Tulip diagrams; enter from the dot and exit in the direction of the arrow.

Enjoy your day and thank you for supporting ecoRally Scotland.
